Kawasaki

Kawasaki motorcycles are a distillation of the most advanced technology the world has to offer.

Representing a unique engineering heritage and a wealth of technological expertise combined with passion, performance and individuality, Kawasaki motorcycles are not just about high performance. They are a crystallisation of advanced technology arising from the collective efforts of the Kawasaki Heavy Industries Group, whose activities span a wide range of business domains including Land, Sea and Air Transportation Systems, Energy & Environmental Engineering and Industrial Equipment.

Kawasaki motorcycles possess both power and grace so are often recognised as being different to other bikes. This results from certain guiding principles adopted at the design stage. Rideology is Kawasaki's rider-centric development philosophy focused on how the riding experience offered by a Kawasaki is crafted, ensuring that our machines are fun to ride and rewarding to control. This approach has been the force behind many of our legendary machines, and in our pursuit of all possibilities it will continue to guide the future creation of Kawasaki motorcycles.

Building champions

To compete, to race, to win - that is the ambition of every motocross rider, right up to those talented individuals who dominate their chosen racing class to reach the pinnacle of success. Across MXGP, MX2 and WMX the competition is intense, the commitment without question and the self-expectation beyond imagination. Livia Lancelot got the job done this year and was crowned Women's Motocross World Champion for the second time aboard the KX250F.

Will to win

CLIMBING TO THE HIGHEST PODIUM STEP IS THE AMBITION OF EVERY KAWASAKI RACER AND TEAM. FROM LOCAL EVENTS TO NATIONAL SERIES AND WORLD CHAMPIONSHIPS, NINJA AND KX MACHINES HELP REALISE THE AMBITIONS OF COUNTLESS RIDERS WITH AN UNQUENCHABLE WILL TO WIN.

World Superbike dominance by Kawasaki Racing Team riders brought the second SBK crown aboard the Ninja ZX-10R for Jonathan Rea and the runner up position for Tom Sykes, while Kawasaki once more secured the manufacturer championship. In World Supersport, Kenan Sofuoglu won his third WSS championship title on the Ninja ZX-6R and Kawasaki took the Manufacturers' trophy.

SMOOTH POWER

Compact engine tuned for low- and mid-range performance offers an easy-to-control character and gratifying acceleration.

UNIQUE STYLING

Inverted triangle headlamp contributes to the Vulcan S's unique design.

With power down kit

1. Offset laydown rear single-shock suspension is a distinctive styling element and contributes to the bike's compact design. The preload is 7-way adjustable.
2. Compact, stacked LCD instrument display includes a gear position indicator, fuel gauge, digital speedometer, clock, odometer, dual trip meters, remaining range and fuel consumption.
3. Sculpted seat design with thick padding offers excellent comfort and good hip support.
4. The stylish under-engine muffler contributes to a low centre of gravity.
5. Brake and clutch levers can be adjusted to suit the rider's hand size and preference.

Fit & comfort

Feeling comfortable, especially for a new rider, is one of the key factors when choosing a motorcycle. The Vulcan S was designed to be accommodating for a wide range of riders from short to tall.

Complementing the relaxed riding position, Ergo-Fit offers adjustable footpegs, easyreach handlebar and 2 different seat options allowing riders to custom-fit their bike to suit size and preference.

CUSTOMISATION

Custom builders love the Vulcan S. MRS Officina created a show stopper while the Mr Martini machine evoked 1970's Kawasaki icons. Meanwhile "Underdog" barked at Germany's Glemseck event. Vulcan S - as individual as you are.

Always ride responsibly. Respect the law and the environment. Always ride within the limits of your skills, your experience, and your machine. Wear an approved helmet and protective clothing. Adhere to the instructions and maintenance schedule in your owner's manual. Never drink and ride. Specifications have been achieved by production models under standard operating conditions. Data are intended to describe motorcycles and their performance capabilities fairly but may not apply to every machine. Specifications likely to change without notice. Specifications, products and illustrated equipment may vary by market. The actions depicted here took place under controlled conditions with professional riders. Never attempt any action which is potentially dangerous. Valuable K-Care customer programmes are available exclusively for products officially imported by Kawasaki Motors Europe N.V. and sold through its official network.
